Rhythm
SocietySM

COURSE INFORMATION

COURSE DESCRIPTION

According to the American Heart Association, cardiac arrhythmias have an estimated prevalence of 14.4 million patients in the United States, and they account for more than 40,000 deaths annually. New developments and advances in the management of cardiac arrhythmias, such as newer anticoagulants, atrial appendage closure devices and CIEDs, afford benefits to patients who suffer from these conditions. Novel analytical approaches and important clinical trials challenge the practicing physician to implement translation of those discoveries into his clinical practice. The gaps that form between new knowledge and changing paradigms in the practice of medicine can only be filled with effective dissemination of the emerging information.

This one-day program is designed to provide clinicians with a review of selected topics in present-day management of patients with cardiac arrhythmias, emphasizing new advances in the field and incorporating current guidelines and evidence-based principles of practice. The format will incorporate didactic lectures as well as case management studies and panel discussions with experts in the field.

LEARNING OBJECTIVES

- Evaluate the pre-market and newly approved cardiac implantable electronic devices (CIEDs) available and select the most appropriate therapy for managing patients with cardiac arrhythmias.
- Assess evidence-based clinical studies defining the role of cardiac resynchronization therapy (CRT) for patients with persistent congestive heart failure (CHF).
- Compare and contrast the risks and benefits of warfarin vs. newer anticoagulants including the role of antidotes, and apply appropriate patient selection criteria for the treatment of patients with atrial fibrillation.
- Compare and contrast the risks and benefits of oral anticoagulation therapy vs. left atrial appendage (LAA) occlusion for the treatment of atrial fibrillation.
- Apply appropriate patient selection criteria for use of wearable defibrillator.
- Evaluate the leadless pacemaker and identify its role in arrhythmia management.

TARGET AUDIENCE

This conference is intended for cardiologists, internists, primary care physicians, physician assistants, nurse practitioners, nurses and other health care professionals with a special interest in the evaluation, diagnosis and management of patients with cardiac arrhythmias.

CME ACCREDITATION

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of of MedStar Georgetown University Hospital and MedStar Heart & Vascular Institute. MedStar Georgetown University Hospital is accredited by the ACCME to provide continuing medical education for physicians.

CREDIT DESIGNATION

MedStar Georgetown University Hospital designates this live activity for a maximum of *7 AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

For Nurses: For the purpose of recertification, the American Nurses Credentialing Center (ANCC) accepts *AMA PRA Category 1 Credits™* issued by organizations accredited by the ACCME. Nurses who attend a Category 1 CME certified activity can complete the continuing education hours section of the ANCC Professional Development Record in order to document the courses attended and the hours obtained.

MedStar Georgetown
University Hospital

COURSE DIRECTOR

EDWARD V. PLATIA, MD

Director, Cardiac Rhythm Device Program
MedStar Washington Hospital Center
MedStar Heart & Vascular Institute
Professor of Medicine
Georgetown University School of Medicine
Washington, DC

FACULTY

RAFIQUE AHMED, MD, PHD

Cardiac Electrophysiologist
MedStar Good Samaritan Hospital
MedStar Heart & Vascular Institute
Baltimore, MD

MARGARET BELL FISCHER, MD

Director, Congenital and Structural Arrhythmia Program
Section of Cardiac Electrophysiology
MedStar Washington Hospital Center
MedStar Georgetown University Hospital
Washington, DC
MedStar Heart & Vascular Institute at Fairfax
Fairfax, VA

SARFRAZ A. DURRANI, MD

Director, Physician Outreach and Complex Arrhythmia Management Program
MedStar Washington Hospital Center
MedStar Heart & Vascular Institute at Fairfax
Assistant Professor of Clinical Medicine, Cardiology
Georgetown University School of Medicine
Fairfax, VA

ZAYD A. ELDADAH, MD, PHD

Director, Section of Cardiac Electrophysiology
MedStar Washington Hospital Center
MedStar Georgetown University Hospital
MedStar Heart & Vascular Institute
Washington, DC

SUNG W. LEE, MD

Director, Cardiac Electrophysiology Lab
MedStar Southern Maryland Hospital Center
MedStar Heart & Vascular Institute
Clinton, MD

GLENN R. MEININGER, MD

Medical Director, Cardiac Electrophysiology Services
Baltimore Region
MedStar Heart & Vascular Institute
Clinical Associate Professor
University of Maryland
Baltimore, MD

SUSAN M. O'DONOGHUE, MD

Director, Cardiogenetics Services
MedStar Washington Hospital Center
MedStar Heart & Vascular Institute
Washington, DC

JONATHAN P. PICCINI, MD

Associate Professor of Medicine
Duke University Medical Center
Duke Clinical Research Institute
Durham, NC

DAVID J. SCHAMP, MD

Chief, Electrophysiology
MedStar Union Memorial Hospital
MedStar Heart & Vascular Institute
Baltimore, MD

MANISH H. SHAH, MD

Director, Cardiac Electrophysiology Fellowship Training Program
MedStar Washington Hospital Center
MedStar Heart & Vascular Institute
Washington, DC

CHRISTIAN C. SHULTS, MD

Co-Director Complex Aortic Disease Program
MedStar Washington Hospital Center
MedStar Heart & Vascular Institute
Washington, DC

DAVID A. STROUSE, MD

Director, Outreach for Device and Complex Ablations
MedStar Georgetown University Hospital
Washington, DC
MedStar Heart & Vascular Institute at Fairfax
Fairfax, VA

ATHANASIOS THOMAIDES, MD

Cardiac Electrophysiologist
MedStar Washington Hospital Center
MedStar Heart & Vascular Institute
Washington, DC

SETH J. WORLEY, MD

Senior Consultant, Cardiac Rhythm Device Management
MedStar Washington Hospital Center
MedStar Heart & Vascular Institute
Washington, DC

AGENDA

- 7:15 AM **Registration & Breakfast**
- 7:55 AM **Welcoming Remarks**
Edward V. Platia, MD
- 8:00 AM **Clinical Pearls in Clinical Electrophysiology: It's All in the ECG**
Glenn R. Meininger, MD
- 8:40 AM **Atrial Fibrillation Ablation: A 20 Year Journey in 20 Minutes**
Zayd A. Eldadah, MD, PhD
- 9:00 AM **Appropriate Use of the Wearable Defibrillator**
Jonathan P. Piccini, MD
- 9:20 AM **The Leadless Pacemaker: Where Will it Fit in?**
Sung W. Lee, MD
- 9:40 AM **Break & Visit the Exhibits**
- 10:00 AM **Stroke Prevention in Atrial Fibrillation: Focus on Anticoagulation**
Jonathan P. Piccini, MD
- 10:35 AM **Stroke Prevention in Atrial Fibrillation: Focus on the Left Atrial Appendage**
Manish H. Shah, MD
- 11:10 AM **Refractory Atrial Fib: New Therapies and the Role of Surgery**
Christian C. Shults, MD
- 11:30 AM **Panel Discussion**
Moderator: Edward V. Platia, MD
Panelists: Z. Eldadah, S. Lee, G. Meininger, J. Piccini, D. Schamp, M. Shah, C. Shults
- 12:00 PM **Lunch & Visit the Exhibits**
- 1:00 PM **Cardiac Resynchronization Therapy: Issues Often Overlooked**
Seth J. Worley, MD
- 1:30 PM **Athletes and Arrhythmias: Screening, Risk, and Patient Management**
Susan M. O'Donoghue, MD
- 1:55 PM **Implantable Defibrillator Update**
David A. Strouse, MD
- 2:20 PM **A Rational Approach to Syncope**
Rafique Ahmed, MD, PhD
- 2:45 PM **Panel Discussion**
Moderator: Edward V. Platia, MD
Panelists: R. Ahmed, S. O'Donoghue, D. Strouse, S. Worley
- 3:00 PM **Modern 3D-Electroanatomic Mapping in the EP Lab: What It Is and How It Has Revolutionized Catheter Ablation of Arrhythmias**
Sarfraz A. Durrani, MD
- 3:20 PM **Remote Monitoring for Improved Patient Care**
Athanasios Thomaides, MD
- 3:40 PM **Cardiac MRI – Its Role in Arrhythmia Management**
Margaret Bell Fischer, MD
- 4:00 PM **Panel Discussion**
Moderator: Edward V. Platia, MD
Panelists: M. Bell Fischer, S. Durrani, A. Thomaides
- 4:30 PM **Closing Remarks**
Edward V. Platia, MD

REGISTRATION INFORMATION

REGISTRATION FEE:

Registration for *Controversies in Cardiac Arrhythmias 2017*: \$55

ONLINE REGISTRATION PREFERRED

Please visit our secure website at <https://cme.medstarhealth.org/cica> for updated program and registration information. We are unable to accept registrations or cancellations by telephone. If you wish to pay your registration fee by check, please download and print a registration form and mail it to the address on the registration form with your check.

All registrations will be confirmed by email only. Please use an email address that you check regularly. If you have questions regarding registration or do not receive an email confirmation of your registration within 1-2 business days, please contact us at medstarcme@gmail.com or 202-780-1655.

CANCELLATION POLICY

Cancellations made in writing by September 8, 2017 will be subject to a 50% penalty. No refunds will be given after September 8, 2017. Cancellations will not be accepted by telephone. In the unlikely event that the course is canceled, MedStar Health will refund the registration fee, but is not responsible for any travel costs.

Please call 202-780-1655 or email medstarcme@gmail.com if you have any questions or need any additional information.
