Continuing Education Credit Information

Course Description

This educational symposium will update the medical community on the state-of-the-art care of gastric and soft tissue neoplasms, while focusing on the importance of a multidisciplinary approach to the diagnosis and treatment of these rare and complicated disease entities, including gastric adenocarcinoma and desmoid tumors. National and international renowned guest speakers and distinguished faculty, including those from MedStar Health and MedStar Georgetown Cancer Institute will discuss the significant roles of evolving new diagnostic modalities, immune therapies, the use of organ-sparing surgery, and the use of state-of-the art radiotherapy in gastric cancer and desmoid tumors.

Learning Objectives

- Discuss imaging techniques for gastric neoplasms
- Discuss the diagnostic and therapeutic role of endoscopy in early gastric cancer
- Recognize the importance of molecular markers in the diagnosis and treatment of gastric neoplasms
- Identify novel targeted and immune therapies for advanced gastric cancer
- Recognize the indications for radiation therapy and proton therapy in the treatment of gastric cancer and desmoid tumors
- Discuss the various treatment options, including Watch and Wait as initial treatment for desmoid tumors

Physician Assistant:

- Identify and treat the new molecular side effects for initial treatment of desmoid tumors
- Recognize the protocol for post-treatment surveillance of patients with gastric neoplasms and desmoid tumors
- Recognize the various modalities that should be considered in the diagnostic evaluation and staging of patients with gastric cancer
- Differentiate the benefits and risks of preoperative versus postoperative radiotherapy
- Comprehend the impact on a patient's quality of life following total gastrectomy
- Identify the importance of a multidisciplinary approach in the management of patients with gastric cancer

Target Audience

This conference is intended for gastroenterologists, radiation oncologists, surgeons, nuclear medicine technologists, radiologists, pathologists, medical students, residents, fellows, nurses, nurse practitioners, and physician assistants. In addition, the program is intended for members of the healthcare team who are interested in the treatment of gastric and soft tissue neoplasms.

Accreditation

In support of improving patient care, MedStar Health is jointly accredited by the Accreditation Council for Continuing Medical

Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), the American Nurses Credentialing Center (ANCC) and the American Academy of PAs (AAPA) to provide continuing education for the healthcare team.

Online Registration Preferred

Please visit our secure website at CME.MedStarHealth.org/GSTN2018 for updated program and registration information. We are unable to accept registrations or cancellations by telephone. If you wish to pay your registration fee by check, please download and print a registration form and mail it to the address on the registration form with your check.

All registrations will be confirmed by email only. Please use an email address that you check regularly. If you have questions regarding registration or do not receive an email confirmation of your registration within one to two business days, please contact us at medstarcme@gmail.com or 202-780-1655.

Cancellation Policy

Cancellations made in writing by August 17, 2018 will be subject to a 50 percent penalty. No refunds will be given after August 17, 2018. Cancellations will not be accepted by telephone. In the unlikely event that the course is canceled, MedStar Health will refund the registration fee, but is not responsible for any travel costs.

Please call 202-780-1655 or email medstarcme@gmail.com if you have any questions or need any additional information.
