CONTINUING EDUCATION CREDIT INFORMATION

COURSE DESCRIPTION
MedStar Georgetown Transplant Institute is proud to be hosting the 7th Annual MedStar Georgetown Transplant Institute Symposium (MGTI 2018) on the campus of the University of Maryland. Since 2008, this program has included three parallel tracks focusing on the diagnosis and management options for kidney, pancreas, liver, and intestinal transplants. These tracks include: Advances in Liver Diseases and Transplantation, Current Issues in Kidney and Pancreatic Transplantation, and Digestive and Transplantation for Children.

The event track cover topics such as hepatic failure, pediatric transplant, and liver transplantation, and the transition from pediatric to adult intestinal failure and transplant care. MGTI 2018 offers an update on transplantation for children, will examine updates on intrahepatic cholestasis syndromes, pediatric intestinal allocation system, post transplant care, managing the waiting list, and living donor transplantation. The third track, The liver track will cover topics such as chronic liver diseases, understanding the liver transplant process, and hepatocellular carcinoma.

The Symposium (MGTI 2018) taking place May 19, 2018. The educational program will consist of three parallel tracks. The tracks include:

- ADVANCES IN LIVER DISEASES AND TRANSPLANTATION: Discuss the advancement of knowledge in liver disease, liver allocation and treatment options for patients with liver diseases and cirrhosis
- CURRENT ISSUES IN KIDNEY AND PANCREATIC TRANSPLANTATION AND DIABETES: Discuss current advances in kidney and/or pancreas transplant; Recognize factors that both limit and enhance access to transplantation
- THE LIVER TRACK: Discuss recent advances in kidney and/or pancreas transplant outcomes

LEARNING OBJECTIVES

ADVANCES IN LIVER DISEASES AND TRANSPLANTATION

- Discuss the advancement of knowledge in liver disease, liver allocation and treatment options for patients with liver diseases and cirrhosis
- Recognize factors that both limit and enhance access to transplantation

CURRENT ISSUES IN KIDNEY AND PANCREATIC TRANSPLANTATION AND DIABETES

- Discuss current advances in kidney and/or pancreas transplant
- Recognize factors that both limit and enhance access to transplantation
- Identify barriers to transplantation

THE LIVER TRACK

- Discuss recent advances in kidney and/or pancreas transplant outcomes
- Recognize factors that both limit and enhance access to transplantation
- Identify barriers to transplantation

CREDENTIALING

An application has been made to the National Association of Social Workers (NASW) for continuing education credits.

FOR OCCUPATIONAL THERAPISTS

An application has been made to the Maryland Board of Physical Therapy Examiners for continuing education credits.

FOR DIETITIANS AND NUTRITIONISTS

An application has been made to the Commission on Dietetic Registration for continuing education credits.

FOR CEPTCS

An application has been made to the American Board for Transplant Certification.

ACCREDITATION

MedStar Georgetown University Hospital and Medical Center is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. MedStar Georgetown University Hospital and Medical Center designates this educational activity for a maximum of 6.25 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

CREDIT DESIGNATION

This activity has been planned and implemented by the Accreditation Council for Pharmacy Education (ACPE) as a part of the MedStar Education (MED-000180) and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.
