

Course Description

Expand your skills and visit the nation’s capital during the famous Cherry Blossom season! This course is designed for obstetricians and gynecologists, urologists, and physicians who perform pelvic surgery, from basic to advanced, and will focus on multiple issues that arise during pelvic surgery. With heavy emphasis on minimally invasive gynecology, the course will highlight such topics as vaginal hysterectomy, laparoscopic hysterectomy, management of abnormal vaginal bleeding, and management of a variety of urogynecologic and pelvic floor disorders and common malignancies. Hands-on training in laparoscopic suturing and hysteroscopy exercises will enhance the learner’s ability to apply the knowledge to everyday practice. Current controversies in the field, as well as emerging technologies, will provide an excellent venue for discussion and debate.

Learning Objectives

- Identify normal anatomic landmarks and major pelvic structures relevant to gynecologic pelvic surgery, from vaginal to laparoscopic to robotic approaches
- Demonstrate relevant anatomy of the pelvic sidewall, including vasculature and its relation to the ureter and retro-peritoneal structures
- Define steps of safe pelvic surgical procedures, such as vaginal hysterectomy and laparoscopic hysterectomy
- Perform laparoscopic suturing using variety of methods and techniques
- Review and identify major steps of pelvic reconstructive procedures, such as Colpopexy, AP repair, and vaginal suspension
- Utilize a variety of hysteroscopic techniques in management and treatment of endometrial cavity disorders

Target Audience

This conference is intended for obstetricians, gynecologists, urogynecologists, urologists, and physicians who perform pelvic surgery, and other members of the healthcare team interested in pelvic surgery.

Accreditation

In support of improving patient care, MedStar Health is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

Credit Designation

MedStar Health designates the live activity for a maximum of 14.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
